

ENERGY OUTREACH COLORADO

Across the state, costs for home energy, health care, child care and housing are climbing. As a result, many Colorado households are struggling to cover their basic living expenses.

Energy Outreach Colorado (EOC) was established in 1989, as a Denver non-profit group that raises money through donations and grants to help families in need pay their energy bills and avoid shutoffs. EOC is working with a network of partner agencies in Colorado to provide a variety of programs to help families remain safe, healthy and warm in their homes.

Empire Electric will match donations made to Energy Outreach Colorado through EEA. To access donation or to apply for assistance go to - <https://www.eea.coop/payment-options-and-assistance-programs>
