Community service hours: Highway clean up, Town parade passing out coupons for mouthwash, cleaning Rangely elementary school students teeth, booths at town events to educate the community and find patients.

Essay

My career goal is to become a dental hygienist. I want to work as a clinical hygienist and educate people on the importance of oral hygiene. I want to help people achieve good oral hygiene and overall health. I am choosing this career path because it allows me to help people in a way that I can see myself making a difference. I have always wanted to help people, and dental hygiene is a profession in which I can see myself making a difference and succeeding for the rest of my career. I have completed my first year in the dental hygiene program, and I love everything I do. When I graduate from CNCC's dental hygiene program, I hope to help and educate as many people as I can. I want to share the knowledge I have gained with my community.

This scholarship will help me succeed in my career, as I am a full-time student and currently unable to work. This will help reduce the financial strain of paying everyday expenses. I feel I am worthy of this scholarship because I have always worked hard to pay my own way and achieve good grades. This scholarship will help me to not overextend myself trying to work while I am in school. Along with difficulty finding employment, it is hard to pay for the classes I am currently enrolled in on my own. As I have been in college for two years now, my student loans are accumulating. Along with the stress of classwork and student finances I am also responsible for finding my own patients while in dental hygiene school. It is hard to find time to reach out to people when I have tests to study for and assignments to turn in. Currently in my summer courses I need three patients a week, in my fall and spring course I will need three patients a week as well. It can be difficult at times to find people who are willing to sit in the dental chair for multiple hours, as I am still learning and building my clinical skills. Our appointments run long and can take up to three hours.

I feel I am worthy of this scholarship because I have always worked hard to pay my own way and achieve good grades. Due to my full academic schedule, I don't have a lot of time to work while in school. I'm not here for the social life, but to get a good education and get a good job after graduation.

Empire Electric

Dear Members of the Scholarship Committee,

I am happy to recommend Avery Stieglmeyer for your scholarship. I've had the opportunity to work with her as both her dental hygiene instructor and advisor, and I've really been able to see her growth and dedication firsthand.

Avery is a very hardworking and motivated student who is truly committed to becoming a dental hygienist. She has clear goals for herself and is planning to continue her education to earn her degree in dental hygiene, which I fully support. She takes her education seriously and consistently puts in the time and effort to succeed.

In clinic, she works well with her patients and shows a lot of care and professionalism. She takes pride in what she does and is always trying to improve her skills. She is reliable, attentive, and does a great job building rapport with patients, which is so important in our field.

She also works hard in her didactic courses. She studies consistently, stays on top of her work, and demonstrates a strong understanding of the material. She is not afraid to ask questions or put in extra effort when needed.

Outside of school, she continues to build on her community service, which shows her commitment to giving back and making a difference. That willingness to serve others is something I really value in students entering our profession.

Overall, Avery is a dedicated student who I believe has a bright future in dental hygiene. I fully support her application and believe she is very deserving of this opportunity.

Please feel free to reach out if you need any additional information.

Sincerely,
Whitney Fischer
