DISTRICT 3 CANDIDATES

Audra L. Fahrion

Hello, my name is Audra Fahrion. I grew up in Montezuma County and have been with Edward Jones for 21 years. I love this community and all it has to offer. I served on the Hospice of Montezuma Board for six years, served as a member of Kiwanis, and I am an active member of Beta Sigma Phi. I have been married to Robert Fahrion for 35 years and he currently serves the community as a paramedic / first responder. Robert and I have two children and two grandsons, that are the light of our lives. This community has been amazing in supporting Robert and I in our businesses. I believe it is my obligation to give back to this community. I have been on the Empire Electric Board for a year, and it has been a great learning experience for me. I hope to be able to serve four more years with the opportunity to continue to serve this community, further my knowledge in the electric world, and represent District #3.

Corey Robinson

I am running for a seat on the Empire Electric board because I'm passionate about our community, the energy world and our electric co-op. I'm an energy nerd, a business owner, and a soon to be father. During this time of rapid change, we need someone who will seek new solutions that work for our unique area.

We are blessed with a fantastic electric cooperative, which has provided reliable, affordable power to our homes for decades. It's easy to take for granted that the lights will come on and power will continue to be inexpensive so our children will be able to afford the quality of life we enjoy.

However, all around Colorado, co-ops are changing the way they generate and deliver electricity, altering the equation not just for them, but for us as well. We need to make decisions now to ensure our community has energy independence and is free from the ever-changing political winds in Denver and DC. We can't assume the way our power was generated thirty years ago will be competitive in the marketplace ten years from now. I envision a co-op where the benefits of energy production stay here with our members, lowering prices and creating stable, well paying jobs.

If elected, I promise to devote the time, energy, and passion to secure a reliable, affordable, and bright future for all members.

Thank you for being an active part of our co-op. I'd be honored to earn your vote.
