List Your School and Community Honors and Activities	President's List for academic achievement from Colorado Mesa University 24-25 school year. Completed all levels and universal EPA testing and certifications.

Essay

My name is Kenneth Chadd and I am a graduate of Dove Creek High School and recently completed my first year of college at Colorado Mesa University Tech. I plan to obtain my Associates Degree and certification in HVAC and Plumbing, and start a career in this industry. I have chosen this career path because it is a field in demand that will never go away, and I enjoy this type of work. HVAC and plumbing are something needed everywhere which gives me multiple options of where I can go. I have one more year of college to complete my educational requirements. During my first year of college, I was able to maintain a 3.96 GPA and was recognized on the President's List. I plan to work hard in my final year, keep my grades high, and graduate in May 2026. My goal is to one day start my own HVAC and plumbing business. Scholarships like this one will be a huge benefit to helping me achieve my educational goals and pay for my education costs. My family is a great support system for me, but they cannot financially pay for my education. I have been fortunate enough to receive some grants, but I am still short of my financial goal. There are few scholarships available for continuing students. This opportunity from Empire Electric is a huge benefit for continuing students trying to pay for school and I am grateful for opportunity to apply. Thank you for considering me for this opportunity!

To whom it may concern:

Kenneth Chadd has approached me to write a letter of recommendation for a scholarship for next year. He has been a student of mine for the past 2 semesters and another one to come. I am honored to have the opportunity to help increase his opportunities for further education.

Kenneth has exemplified the perfect example of a student, as well as a worker I would be honored to employ if I still had my company!

Kenneth is always on time, or in contact with me if there is an issue. He has maintained an A average in every one of my classes which include Fundamentals of Gas heating, OSHA-10, Hydronics, and Piping Skills for HVAC.

I highly recommend Kenneth for any scholarship he is interested in applying for. He has proven his diligence to work hard, willingness to complete tasks in a timely manner, and dedication to doing his job correctly and professionally.

I would highly encourage your willingness to look for Kenneth as a candidate for your generous scholarship offer! I have no doubt; he will not let you down.

I would be happy to answer any questions you may have on this matter by using my contact details below.

Thank you for your time, generosity, and efforts for our students.

Sincerely,

AJ Armstrong

Technical Instructor of Construction Trades
