Colorado Mesa Honor Roll

Student-Employee as an Athletic Event Crew Staff

This past year I spent time focusing on my educational pursuits and worked as a student employee to gain more experience working in a new community. This fall I plan to join more clubs and have a more active presence on campus.

Essay

This past year as a college freshman has taught me more about life and myself than I ever could have imagined. While it has been a roller coaster of emotions, and there were multiple times where I was thinking about giving up, I ultimately became a better person because of it. I hope to be able to continue this journey so I can see myself become the person I want to be, but without the help of scholarships the financial strain on my family would be too much of a burden.

In the fall, I will return to Colorado Mesa University as a sophomore with the intent to further my education and take advantage of all the opportunities provided by the university and surrounding Grand Junction area. I am currently on track to major in Mass Communications with a minor in Sociology. My whole life I have found joy in being able to help people in my community, and I plan to do even more after earning these degrees. A degree in Mass Communication and Sociology opens doors to careers in community advocacy, student life, social awareness, and corporate relations. The path I choose to take will be centered around community and helping people in need to better the world in any way I can. I plan to take what I learn in this stage of life and give back to the community that helped raise me.

My family consists of two hard-working teachers and two younger siblings. My brother is currently finishing his junior year of high school and is starting to investigate education after high school, while my sister will be entering her first year of high school. I have grown up with two wonderful parents who found their path in teaching. Unfortunately, while teaching provides a fulfilling life, it does not provide financial stability to send three over-achieving children to college. I have always known that while my parents would help wherever possible, the mass amount of money required to pay for college would be on me. This means that for my dreams to become reality I will need financial aid in scholarships and grants.

I am applying for this scholarship in the hopes of providing some relief to my family and to

help me achieve my goals in education and life after. I hope to be able to help the community and people that got me to where I am today, but before that is possible, I need the opportunity to continue my education. With the support of this scholarship, I can focus on growing academically and personally so that I can give back to others with the same kindness and support that have shaped my journey. This scholarship isn't just an investment in my future; it's an investment in the positive impacts I hope to make for my community.

To Whom It May Concern:

I am writing this letter of recommendation for Isla Vaughn, a student who is currently in my Mass 110 Mass Media History and Impact course. She is a wonderful student and has consistently attended class, has a solid A, and her work is both thoughtful and exceptional. Isla has distinguished herself in my class through her in-class comments and written work. She performs well above a freshman level and I have no doubt she will excel in both Sociology and Mass Communication. In short, she is an excellent and friendly student who will do herself, and Colorado Mesa University, proud.

Please do not hesitate reaching out if you have any questions or need additional information.

Best regards,
