USD Sailing Club Team Member

STEM Outreach Club Member

Business Administration Club Member

**Essay**

My name is Keira LaRose, I am a recent graduate of Dolores High School and a 2025 recipient of the Empire Electric Scholarship. I currently attend the University of San Diego, where I am pursuing a degree in Business Administration with a concentration in Sustainability. I am incredibly grateful for the opportunity to reapply and share how this scholarship has contributed to my success in college and beyond.

Growing up in rural Colorado, community has always been an important part of my life and my success, both academically and personally. During high school, I had the opportunity to compete at the varsity level in sports, serve as class president, and participate in National Honor Society, among other activities. I also earned my Associate of General Studies during my senior year alongside my high school diploma. Dolores High School gave me a strong foundation and helped me develop skills that I continue to use today, including advocating for myself and working hard to achieve my goals.

Now at my dream school in San Diego, I have been able to continue building on those skills and have had a very successful first year. I earned a 4.0 GPA in my first semester and received First Honors on the Dean's List. My classes at both Dolores High School and the University of San Diego have encouraged me to pursue business while also continuing my interest in environmental science. I am especially interested in how I can help make the business world more ethical and sustainable.

Throughout high school, I was also very involved in volunteering. One of the main organizations I worked with was Pueblo Community College through their STEM Outreach Program. I have always been passionate about STEM, and I really enjoy working with students and helping them discover an interest in different fields. Through this program, I worked with students from Dolores Elementary School, Dolores High School, Kwiayat Charter School, and others, introducing them to different STEM careers and hands-on experiences.

I have continued this involvement at the University of San Diego through the STEM Outreach Club. I have participated in events such as Expand Your Horizons and have visited local elementary schools to lead experiments and talk about STEM pathways. Recently, our focus has been on working with underrepresented communities. Some of the activities we do include microscopy, robotics, and hydroponics, which are awesome and make STEM more engaging for

kids of all ages.

Beyond STEM Outreach I've had the incredible opportunity to be part of many different clubs and societies at the University of San Diego. One club I have joined and will take the role of Risk Manager within next year is Sailing Club. This experience has allowed me to embrace teamwork and leadership in a dynamic and unique environment, fostering personal growth and resilience. Another organization I have joined is the Business Administration Society (BAS). BAS has deepened my understanding of business practices and ethical leadership. It has provided me with a platform to connect with peers who share similar goals and aspirations, allowing me to build strong connections and networks.

I am extremely grateful to be able to attend the University of San Diego, and the Empire Electric Scholarship has played a huge role in making that possible. I will continue working throughout the summer and school year to help contribute to my tuition and expenses. I am very appreciative to have been given the opportunity to serve as a Residential Assistant at USD next year and that will provide significant support to my living costs. With three siblings, including one also in college, and both of my parents working as teachers, financial support like this scholarship makes a significant difference for my family and me.

I am proud to be from Dolores, Colorado, and to be a Dolores High School graduate. The experiences I had there continue to shape who I am today. Being able to attend the University of San Diego and continue my education is something I truly value, and I plan to work hard and make the most of this opportunity. I hope to eventually give back to my community through what I learn and experience.

**Submission Date**

2026-06-14

**Applicant's Signature**

A handwritten signature in black ink that reads "Keira Lapose". The signature is written in a cursive, flowing style with large loops and a prominent initial 'K'.

UNOFFICIAL

To Whom It May Concern,

I am very pleased to write this recommendation letter for Keira LaRose. As a Scholastic Assistant, I had the chance to work with Keira throughout the school year and get to know her as both a student and a member of our campus community.

Keira is one of those people who is always willing to put in the effort and help others around her. She is responsible, hardworking, and genuinely cares about doing her best. Throughout the year, she consistently showed up with a positive attitude and was engaged in the community around her.

One thing that stands out about Keira is her ability to balance a lot of different responsibilities while still staying involved on campus. She is someone people can rely on, and she always carries herself in a professional and respectful way. She works well with others and has a natural ability to make people feel comfortable and included.

I was especially excited to hear that Keira was selected to be a Resident Assistant for the upcoming year. Being an RA requires leadership, responsibility, and strong communication skills, and I think she is a great fit for the role. She is approachable, dependable, and someone who genuinely wants to support the people around her. I know she will have a positive impact on the students she works with.

Overall, Keira is a motivated and kind person who will be an asset to any organization or opportunity she pursues. I am confident she will continue to be successful and make a positive impact wherever she goes.

Sincerely,

Haley Strickbine  
Scholastic Assistant  
University of San Diego
