Essay

With two years of college experience behind me, I've gained a clearer vision of the future I want to build—one where I can make a real difference in people's lives through a career in physical therapy. My commitment to this path has only grown stronger as I've continued my studies and reflected on the experiences that have shaped me. I am applying for this scholarship because it supports not just my education, but also my long-term goal of helping others while remaining financially responsible. Healthcare appeals to me not just as a career path, but as a way to make a meaningful impact on others' lives. As a student-athlete playing college baseball, I've experienced sports-related injuries and the importance of quality care during recovery. These experiences opened my eyes to the broader world of healthcare and how essential compassionate, skilled professionals are to a person's well-being. I've found a deep sense of purpose in helping others improve their health, especially children, and I hope to one day work in a healthcare setting—such as a children's hospital—where I can support young patients in achieving their goals and improving their quality of life.

Pursuing my goals requires dedication both inside and outside the classroom. Over the past two years, I have managed a demanding academic schedule filled with rigorous coursework while participating in work-study each evening to help cover my college expenses. I also committed time to community service, which allowed me to stay connected to others and give back in meaningful ways. Balancing academics, work, practice, games, travel, and community service has strengthened my time management skills, work ethic, and sense of purpose—qualities that I will carry with me throughout my education and future career in healthcare.

Though my parents have worked hard to save for my college education, those savings won't cover all of my expenses. I've seen how long-term student debt can burden families—I've watched my own parents navigate that reality—and I am determined to graduate with as little debt as possible.

This scholarship would be an investment in both my education and the future I'm working hard to create. I am reapplying not just because of financial need, but because I am fully committed to making the most of my opportunities. I want to dedicate my life to helping others heal and thrive, and with your support, I can continue down this path with less financial strain. Thank you for considering my application and supporting students who are working to turn their goals into reality.

Northeastern Junior College

Courses which are in progress may also be included on this transcript.

GT Pathways and CCCS CORE:
Colorado Community Colleges have established a set of core requirements that will provide students with a block of courses guaranteed to transfer among most Colorado two, and four-year institutions. The following codes, found in the course title, indicate the Core category to which the course is applied. Check your institution's Catalog to receive more specific information about the GT Pathways and CCCS transfer Core.

Core Codes: CO1, CO2, MA1, AH1, AH2, AH3, AH4, HI1, SS1, SS2, SS3, SC1, and SC2

Recommendation for Evan LaMunyon

To The Scholarship Selection Committee,

My name is Cory Gaines, and I am a math and physics instructor at NJC. I am writing concerning Evan and why I think he is a good candidate for a scholarship here at NJC. Evan is quite a driven young man; he is a conscientious, motivated and responsible student who took a difficult first semester full of work-intensive science classes here at NJC (in addition to being a student athlete) and made a success of it. From what I've seen of him in my classes, from what I have seen of him as an advisor, I know he has everything he needs to do well in the remainder of his college career. I recommend him to you without reservation.

If I were on the committee and deciding how to award scholarship money, the most important thing for me to know would be how good of an investment the candidate is. I would like to know how determined someone is to get an education, and how likely it is that they will finish so I didn't waste money. As I indicated above, Evan's future is of no concern to me. I cannot see any reason why he would not be a good investment. I know he will finish what he starts because he has done it multiple times in my class.

Evan has all the habits and skills he'll need to succeed as he continues his education. He has already made the decision to do well, and he follows through on that decision every day in class. I am happy to talk to you more if you have any further questions or need any clarification. Feel free to call me at the phone number or write me at the email below.

Sincerely,

Cory Gaines
