List Your School and Community Honors and Activities

In high school, National Honor Society, President of Recycling, Student Council Member, and Volleyball Captain

Post high school- Offered to join the NSCS (National Society of College Scholars)

Essay

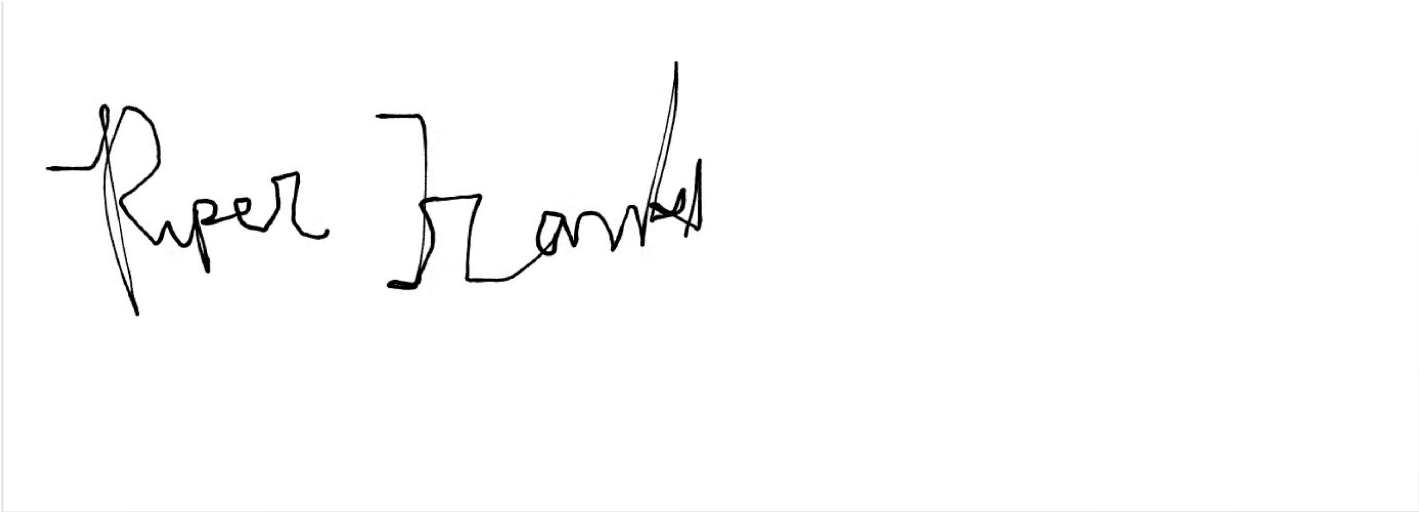

During my time at Colorado State University, I have spent time discovering what I am truly passionate about and inspired by. While doing so, I discovered nutrition, and I immediately fell in love with the idea of becoming a nutritionist. I am thrilled to learn more about people's bodies and nutrition as a whole, but ultimately, my career goal is to someday help people discover what works for them. I want to work with people struggling with their health to help them improve, or with athletes to help them perform to the best of their abilities. I have always loved helping people and sticking by their side through hard times, and with this job, I know I would succeed at that.

When I am not in Fort Collins, I live at home with both of my parents and my older brother, who was recently in rehab, and my parents are covering many of his expenses. My dad is a seasonal Wildland firefighter and a substitute for local schools during his off-season. My mom works part-time for Mancos Valley Resources. Money has become more difficult to come by, which has limited the resources available for my education. I am financially responsible for my continued education. I have a small college fund that will only cover one semester of school. I am applying for this scholarship in hopes that you will continue to support my goal of graduating with a degree in nutrition so I can pursue a career that aligns with my passion for helping others. Thank you for taking the time to consider me for this scholarship.

Scholarship Recommendation Letter for Piper Franks

June 8, 2026

To Whom It May Concern,

I am pleased to write this letter of recommendation in support of Piper Franks for the Continuing Education Scholarship through Empire Electric Association, Inc. I have had the opportunity to work with Piper through Colorado State University's Community for Excellence (C4E) program, where I serve as a Student Success Specialist. Through our individual meetings and workshops, I have had the chance to observe her academic commitment, personal growth, and dedication to her educational goals.

Piper has consistently demonstrated a strong commitment to her academic success and overall development as a student. Throughout my time working with Piper as her C4E Scholar Contact, she has shown herself to be responsible, organized, punctual, and intentional about maintaining good academic standing while remaining focused on her long-term goals. She approaches her education with maturity and a strong sense of purpose.

One quality that has particularly stood out to me is Piper's consistency in engaging with program expectations. She has remained committed to the requirements of the C4E program, actively participating in required meetings and workshops while demonstrating a genuine openness to learning and growth. Piper has always approached these engagements thoughtfully, often bringing curiosity and a strong willingness to make the most of available support systems.

In addition to her academic focus, Piper carries herself with professionalism and responsibility. She communicates well, follows through on commitments, and demonstrates the kind of organizational skills and dedication that position students for long term success both academically and personally.

Based on my experience working with Piper, I am confident that she embodies the qualities this scholarship seeks to support. I strongly recommend her continued consideration for the Empire Electric Association Continuing Education Scholarship and believe she will continue to represent the values of the program well.

Please feel free to contact me if additional information would be helpful.

Sincerely,

Abraham Lorig
Student Success Specialist
Access Center, Colorado State University
