Applicant's Name	Makayla M Wayman
Applicant's Address	6503 Road 38 6503 Road 38 Mancos, Colorado. 81328
Your Email Address	<a href="mailto:mwayman04@gmail.com">mwayman04@gmail.com</a>
Telephone Number	<a href="tel:9702380052">9702380052</a>
Empire Electric Account Number	34609001
Name on Empire Electric Account	Robert Willburn
Relationship to Empire Electric Account Member	Grandfather
Year You Recieved an Empire Electric Scholarship	2022
Year You Graduated High School	2022
Name and address of the institution you are attending	University of Colorado Boulder Office of Financial Aid 77 UCB Boulder, Colorado. 80309 110428944
Field of Study	Mechanical Engineering
Other Children in Your Family	<ul style="list-style-type: none"><li></li><li></li></ul>
Other Financial Aid	I will be recieving \$21,000 in grants and other scholarships.
Upload Most Recent Academic Transcript - Can not be a screen shot -	<a href="#">Transcript 2025.pdf</a> (3.34 KB)
Upload Letter of Reference from College Professor or Academic Advisor	<a href="#">Letter of Rec.pdf</a> (324.95 KB)
List Your School and Community Honors and Activities	Mancos High School: High Honors-every year since middle school, Varsity Basketball- One year, Girls basketball manager- Two years , Varsity Basketball Captain- One year, Varsity Soccer- One year, Advocacy for domestic violence and sexual assault victims- One and a half years, Recycling for my school- One year, Giving firewood out to the community- Two years Colorado State University: Dean's List- Freshman Year

I would like to express my gratitude for awarding me this scholarship in previous years. As I enter my final year of college, your support, along with grants and other scholarships, has allowed me to focus more on my education rather than worrying about finances or debt. I am truly thankful for this committee and for the continued confidence you have shown in me.

Over the past year, I've learned a lot about myself and experienced significant personal growth. I know now more than ever that I chose the right major. I've built strong friendships and enjoy collaborating with both classmates and professors, learning from their experiences. My college journey has been further pursued by my summer internship with the National Forest Service as an Engineering Intern. I truly enjoy being able to contribute to the planet and the community through this opportunity.

I still plan to pursue a career in 3D design for any company where I can apply my skills. My goal is to help reduce global warming and support ozone recovery by minimizing greenhouse gas emissions through innovative design. While attending the showcase at Colorado Mesa University, I was inspired by the many student projects making an impact in the community. Now, going into my senior year, I'll be working on a project of my own, and I'm excited to contribute just as others have before me.

I believe I should be considered for this scholarship because of my dedication and strong work ethic. When I'm not in class, I'm either studying or staying active. I strive to earn the best grades possible while still making time for things I love, like going to the gym and spending time with friends. I am motivated to keep learning in the field of mechanical engineering and possibly pursue biomedical engineering in the future.

My mother, after going through a second divorce, is currently involved in a tax battle with her ex-husband and is paying off his debt to the IRS. My father is the sole provider for his household, as my stepmother homeschools their two children. Both my brother and stepbrother are in college, so I am doing everything I can to support myself and avoid placing additional financial strain on my family, all while preparing for a stable and successful future.

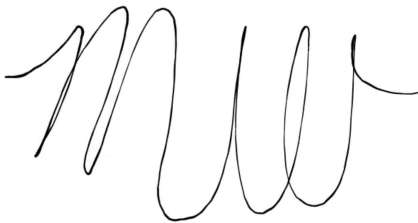

Thank you for helping me achieve my dream of earning a mechanical engineering degree by the age of 21, with minimal debt. I am truly grateful.

To Whom It May Concern,

My name is Michael Silvey (he/they) and I am writing this letter of recommendation for Makayla Wayman I have the pleasure of working with Makayla here at Colorado State University and could not recommend her any more highly for the Continuing Education Empire Electric Scholarship. During my time serving at Makayla's scholar contact, I have been able to see her drive and passion for both her academics and working with others in daily situations that I believe would put her heads and shoulders above others in her field of choice.

Makayla is very strong individual in terms of working on her own academics. As her scholar contact, I am in connection with her for checking in on her good standing status with the institution. We go over various study skills and how to stay academically successful throughout her time at Colorado State University, as well as connecting her to various resources and offices of support on campus that she can utilize. Makayla is maintaining a 3.428 GPA and is currently enrolled in her junior year here at CSU. She is very academically successful and continues to find opportunities to stay on top of her assignments and branch out to new opportunities. She is also unafraid to reach out to support and maintains good contact with myself and her instructors during the semester.

Throughout my time as her scholar contact, I have gotten to know a lot about Makayla and cannot more highly recommend her for renewal of this scholarship. As a first-generation student, she has a strong commitment to getting her degree not only for herself, but for those who come after her. She has been very academically successful with being accepted into a competitive major and excelling in her classes simultaneously. She has found ways to stay on top of her own personal growth, as well as maintain in good standing with CSU and the Community for Excellence. Makayla excels in balancing a busy schedule, while also staying on top of her assignments and workload for school.

I am certain that Makayla will continue to grow during her time here at CSU. She is talented, caring, intuitive, dedicated, and focused on her pursuits. Makayla is truly a stand-out individual who will impress everyone she meets. If you would like to further discuss Makayla's potential, please feel free to reach out to me at [Michael.Silvey@colostate.edu](mailto:Michael.Silvey@colostate.edu). Thank you for your time!

Sincerely,

Michael Silvey, M.Ed
