

7th Annual Tri-State Energy Conference for Educators partnered with NEED (National Energy Education Development)

June 19-21, 2018

Tri-State Generation and Transmission
1100 W. 116th Avenue, Westminster, CO

A great way to spend a few days of your summer!

Thanks to the support of Tri-State's member cooperatives, which includes Empire Electric Association Inc., there is no cost for 4th to 12th grade educators in the Tri-State service area. Lodging, meals, transportation and conference materials are provided. Attending teachers receive a NEED Science of Energy Kit (\$300 value), a class-set of NEED Energy Infobooks (at grade level), access to all NEED Curriculum Guides and supplemental resources.

NEED will reimburse mileage for car travel at .54/mile with a maximum reimbursement of \$300. If you live more than 250 miles away from the conference site, NEED will provide a plane ticket. NEED will also arrange a shuttle for airport pick up.

NEED will make hotel reservations for all attendees. Participants traveling from more than 50 miles will be provided lodging the nights of June 18th and 21st, if requested.

**For more information contact Wendi Moss, The NEED Project, at wmos@need.org
or Michelle Pastor, Tri-State, at mpastor@tristategt.org
Space is limited! • Applications are reviewed in the order they are received.**
